PRESENTED BY

IN COLLABORATION WITH

Day 1

Monday 19 November

8:00am	Registration and coffee (served in Exhibition Hall)		
8.45am	Welcome from Tony Arnel, President of the Energy Efficiency Council		
9.15am	Professor Peter Hennicke Former President, Wuppertal Institute Germany is a manufacturing powerhouse and world leader in energy efficiency and clean energy. Professor Hennicke, one of the fathers of Germany's energy transformation, will discuss key lessons to help Australia address its energy crisis.		
10.30am	Morning tea (served in Exhibition Hall)		
11.00am	Address from the Energy in Buildings and Communities (EBC) Programme Takao Sawachi, Chair, EBC and Vice President, Building Research Institute Japan		
11.10am	What will drive the buildings revolution? Buildings are being transformed by new goals to boost the health of occupants, lower emissions and reduce costs. This session will bring together global and local leaders to look at the drivers that will change our cities. Cassandra Goldie, CEO, Australian Council of Social Service Dominique Hes, Director, Thrive Research Hub Ken Morrison, Chief Executive, Property Council of Australia		
12.30pm	Lunch (served in Exhibition Hall)		
	BUILDING STREAM A	BUILDING STREAM B	INDUSTRIAL STREAM
1.30pm	Higher education – leading the way to an efficient future This session will look at how campuses are radically improving their efficiency to dramatically cut bills and teach the next generation of urban designers.	Maximising thermal comfort and air quality Experts will look at the design, technologies and policies we need to deliver healthy, productive buildings.	The cutting edge of industrial energy management Learn from leaders about industrial energy management's growing focus on onsite renewables, PPAs, smart grids and demand response.
2.30pm	Buildings for people – healthy, safe, affordable homes This session will bring together global and local experts to look at the technical and policy issues of building homes around people.	The next generation of building modelling and rating Learn how better measurement and modelling tools are about to revolutionise the way that we design, build and manage buildings.	Engaging industrial energy users This session will look at Australian industry's energy use and capacity, and discuss the implications for service providers and policy makers.

Day 1

Monday 19 November *continued*

3.30pm Afternoon tea (served in Exhibition Hall)

4.00pm **Ministerial address**

4.30pm **Cities of the Future – buildings and beyond**

Cities are far more than just buildings – this session will bring together local and global leaders to look at trends in urban planning, transport, public lighting and infrastructure and what they mean for our cities.

Romilly Madew, Chief Executive Officer, Green Building Council of Australia

Additional speakers to be confirmed

5.30pm Networking drinks (served in Exhibition Hall)

6.00pm **Energy Efficiency Council AGM (Members only)**

7.30pm **Gala Dinner & National Energy Efficiency Awards 2018**

Day 2

Tuesday 20 November

8.00am Registration and coffee (served in Exhibition Hall)

9.00am **So Hot Right Now! How to make efficiency desirable**

To bring about the energy revolution we'll need to win the war for hearts and minds. This session will bring together leaders in marketing, art and music for a fresh angle on energy efficiency.

Luke Brown, General Manager – Corporate Affairs, Marketing and Stakeholder Relations, Lyon Group

Jodie Newcombe, Founding Director, Carbon Arts

Will Tait, Musical Philosopher, Future Crunch

10.15am Morning tea (served in Exhibition Hall)

10.45am **How will energy management transform the energy markets?**

As our energy sector transforms, energy management is becoming a key tool to keep the lights on, and energy affordable. This session will bring together leading voices to discuss how demand response and energy efficiency fit into the future energy system.

Matt Golden, CEO, Open Energy Efficiency

Iain MacGill, Associate Professor, Centre for Energy and Environmental Markets, University of NSW

Violette Mouchaileh, Group Manager – Market Enhancement, AEMO

12.15pm Lunch (served in Exhibition Hall)

12.30pm **Energy Insiders podcast**

1.15pm

Energy Efficiency Schemes and Incentives

Get the latest insights into the current state of play and future of Australia's energy efficiency schemes and incentive programs.

What is the role of training in energy management?

For a major revolution in Australia's energy efficiency, who do we need to train, what skills do they need, and when is training not the answer?

Upgrading public buildings & infrastructure

What are the trends in upgrading public buildings and infrastructure and how do we accelerate them? (Workshop)

2.45pm Afternoon tea (served in Exhibition Hall)

3.15pm **Political Leaders' Forum**

Hon Mark Butler MP, Federal Shadow Minister for Climate Change and Energy

Senator Tim Storer, Independent Federal Senator for South Australia

4.15pm **Closing comments**

4.30pm Networking drinks (served in Exhibition Hall)

5.00pm **Conference close**

2018 Conference Pricing

Prices exclude GST

	Full Conference (includes Dinner)		One day (excludes Dinner)		Dinner only
	Early Bird	Full Price	Early Bird	Full Price	Full Price
Standard	\$1,580	\$2,100	\$1,050	\$1,370	\$250
EEC Member	\$1,250	\$1,580	\$840	\$1,050	\$185
Government	\$1,050	\$1,260	\$730	\$840	\$185

We extend warm thanks to our Conference Sponsors, whose generous support makes the National Energy Efficiency Conference 2018 possible.

Event Partner

Platinum Sponsor

Silver Sponsors

Industry Supporter

Media Partner

We have a range of sponsorship and exhibition opportunities available. Whether you're looking to showcase a new product, debate a big idea, connect with decision makers or to simply demonstrate your commitment to Australia's energy efficiency sector, we have a range of packages to meet your objectives, whatever your budget. Email events@eec.org.au to discuss these options.
